## **DETAILED ACTION**

This office action is in response to the amendment received June 29, 2004. In accordance with the amendment, claim 9 has been amended. It is noted that in the Brief Description of the Drawings, that Figures 8a and 8b should be included.

### ***Allowable Subject Matter***

1. Claims 1-9 are allowed. The following is an examiner's statement of reasons for allowance: the relevant prior art of record does not teach or reasonably suggest that the refractive-index lowering molecules are *within* the waveguide core region, at the core's periphery, and the molecules are distributed with higher concentration toward the outer sides (within) the core region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

2. Applicant's arguments, see amendment, filed June 29, 2004, with respect to the rejection of claims 1-3 and 9 to Lee et al. '871 have been fully considered and are persuasive. The rejections of claims 1-3 and 9 have been withdrawn.

### ***Conclusion***
